-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 23 August 2007.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.

**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election without traverse of figure 4A (claims 1-28, 30 and 47-52) in the reply filed on August 23, 2007 is acknowledged.

Examiner agrees with applicant's clarification that figures 6 and 8 are of same species as figure 4A. Figures 6 and 8 therefore are included herein for examination with figure 4A.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 3-8, 12-24, and 47-51 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by McKinney (1,097,458). McKinney has a first leaf having a base portion 2, a mounting portion 12, two rows of vertically extending holes with reinforcement 16, a second leaf 3 having base portion 8, a mounting portion 14 and two rows of holes 16 (one horizontal row and one transverse row).

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-28, 30, and 47-52 are rejected under 35 U.S.C. 103(a) as being unpatentable over Baer (5,778,491) in view of McKinney '458.

Baer discloses the invention as claimed but for the cavity between the base portion and the reinforcement disposed proximate to the holes. McKinney teaches a hinge leaf having a cavity between the base portions and reinforcement disposed around the conical holes to stiffen the body and to form a bearing surface for the hinged object. It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the hinge leaves of Baer with the cavity and reinforcement as taught by McKinney to stiffen the leaf body and to provide a bearing surface for the hinged object.

As to claims 11, 16, 25, 26 and 52, it would have been obvious to one having ordinary skill in the art to choose the specific metal or screws to form or attach the hinge leaves, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice.

As to claims 2 and 27, the width of the closed hinge and the depth of the conical surface would have been obvious matter of design choice since as such involves only routine skill in the art where the general conditions of a claim are disclosed in the prior art.

***Conclusion***
